

The President's *Council*

*In 2017,
Civitan will Celebrate
100 Years
of Community Service*

The President's Council
will help continue the legacy
of Civitan for future generations

The President's Council provides an opportunity to help secure Civitan's future.

Your investment is used to ensure continued services and charitable community support for years to come.

This program is available to all Civitan members and community leaders that are interested in making a difference by improving the lives of others.

The **President's** *Council*

Since 1991, Civitan members and community leaders have provided support to the President's Council. Created to help secure the organization's longevity, this program recognizes each individual for their investment in sustaining Civitan for future generations.

President's Council contributions are controlled by Civitan International board policy and are first used to underwrite planned giving initiatives. Any excess is then used to increase the President's Council endowment and supplement other charitable program needs. Contributions from donors outside the United States are used to underwrite a portion of Civitan's grant commitment to fund the Civitan International Research Center.
